

RESHMI M

Chennai, TN | +91 9003294483 | reshmimoha09@gmail.com
[LinkedIn: reshmi-m-595a73268](#) | [GitHub: RES0912](#)

Final-year B.Tech student in Artificial Intelligence and Data Science. Highly proficient in Python, C, and industry-standard machine learning libraries. Demonstrated success in developing high-accuracy predictive models and automated data pipelines. Published researcher and patent holder with a strong foundation in problem-solving and full-stack web integration.

EDUCATION

Sri Sai Ram Institute of Technology, Chennai
Bachelor of Technology in Artificial Intelligence and Data Science | **CGPA: 8.12**

Expected 2026

TECHNICALSKILLS

Languages: Python, C, HTML5, CSS3, JavaScript
AI/ML & Libraries: Scikit-learn, TensorFlow, NumPy, Pandas, Matplotlib, CatBoost
Databases: MySQL, MongoDB
Core Concepts: DSA, DBMS, Computer Networks, Cloud Computing

EXPERIENCE

Titan Company Limited | *Project Trainee*

June 2025

- Developed and deployed a Gold Rate Calculator web application with real-time API and database integration.
- Improved transaction efficiency by 25% and reduced manual calculation errors by 40%.

Edunet Foundation | *Project Trainee*

Aug 2025 – Oct 2025

- Architected a responsive Recipe Finder application using modern web technologies and API integration.
- Enhanced application usability and efficiency through optimized front-end workflows.

TVS Motor Company Pvt. Ltd. | *Project Trainee*

June 2024

- Applied data analytics to warehouse management, identifying bottlenecks in stock retrieval.
- Reduced retrieval time by 18% through targeted process automation.

KEYPROJECTS

MMA Movement Prediction System (Deep Learning)

- Engineered a CNN-based model to classify 100+ unique movements with 90%+ accuracy.
- Optimized for performance with an inference time of <200 MS.

Thyroid Disorder Prediction System (ML & Web)

- Developed a clinical diagnostic tool using the CatBoost algorithm for real-time disease classification.
- Created a user-friendly web interface for clinical data input and diagnostic output.

ACHIEVEMENTS & RESEARCH

- Patent Published:** AI-Enhanced Newborn Screening for Genetic Analysis.

- **Research Paper:** Published "CatBoost-based AI Model for Early Diagnosis of Neonatal Thyroid Disorders."
- **Certifications:** 10+ professional credentials from Cisco, IBM SkillBuild, and Oracle.
- **NPTEL:** Certified in Design Thinking, Python for Data Science, HCI, and Cloud Computing.
- **Hackathons:** Participant in Bharatiya Antariksh Hackathon 2025 and HACK4PURPOSE.
- **Organizations:** Organize department events, Organize events as ieee member under CTS society
- **Course Completions:** Java backend developer (ICT Academy), Completed MPC Training (Mahindra)
